INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.

PCT/AU00/01048

I.	Basis of the r	report
1.	With regard to the	elements of the international application:*
	X the internati	onal application as originally filed.
	the descripti	ion, pages, as originally filed,
		pages , filed with the demand,
		pages, received on with the letter of
	the claims,	pages , as originally filed,
		pages, as amended (together with any statement) under Article 19,
		pages, filed with the demand,
		pages, received on with the letter of
	the drawings	s, pages, as originally filed,
		pages, filed with the demand,
		pages, received on with the letter of
	the sequence	e listing part of the description:
		pages , as originally filed
		pages , filed with the demand
		pages, received on with the letter of
2.	which the internation	language, all the elements marked above were available or furnished to this Authority in the language in onal application was filed, unless otherwise indicated under this item. re available or furnished to this Authority in the following language which is:
		of a translation furnished for the purposes of international search (under Rule 23.1(b)).
	the language	of publication of the international application (under Rule 48.3(b)).
	the language and/or 55.3)	of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 .
3.	With regard to any sequence listing:	nucleotide and/or amino acid sequence disclosed in the international application, was on the basis of the
		the international application in written form.
_	X filed togethe	r with the international application in computer readable form.
_	furnished sul	bsequently to this Authority in written form.
	furnished sul	bsequently to this Authority in computer readable form.
		nt that the subsequently furnished written sequence listing does not go beyond the disclosure in the application as filed has been furnished.
	The statemen	nt that the information recorded in computer readable form is identical to the written sequence listing has ed
4.	The amendm	nents have resulted in the cancellation of:
	the de	escription, pages
	the cl	aims, Nos.
	the dr	rawings, sheets/fig.
5.		has been established as if (some of) the amendments had not been made, since they have been considered to be disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**
*		phich have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17).
**	Any replacement shee	et containing such amendments must be referred to under item 1 and annexed to this report

International application No.

PCT/AU00/01048

v.	Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citati ns
	and explanations supporting such statement

1. Statement Novelty (N) Claims 1 - 38 YES Claims NO Inventive step (IS) Claims 1 - 38 YES Claims NO		
1. Statement		
Novelty (N)	Claims 1 - 38	YES
	Claims	NO
Inventive step (IS)	Claims 1 - 38	YES
	Claims	NO
Industrial applicability (IA)	Claims 1 - 38	YES
	Claims	NO

2. Citations and explanations (Rule 70.7)

The present invention relates to antigens of *Moraxella*: peptides related to SEQ. ID. No. 1, nucleic acids encoding them, compositions containing them and antibodies raised against them.

Novelty (N) and Inventive step (IS)

WO 90/07525 discloses a cytotoxin from M. bovis that is substantially free from intact microbial cells. No sequences are given for the cytotoxin.

EP 146 523 proteases which can be used as immunoprophylactic agents for protection against *M. bovis*. No sequences are given for these proteases.

Journal of Clinical Microbiology, vol. 13, No. 2, pages 269-271, discloses hydrolytic enzymes from *Moraxella bovis*".

FEMS Microbiology Letters, Vol. 124 (1994) pages 69-73 discloses a haemolytic cell-free preparation of *Moraxella bovis* which confers protection against infectious bovine keratoconjunctivitis—no sequences are disclosed.

American Journal of Veterinary Research, Vol. 51, No. 2, pages 191 - 196 discloses leukocidic and haemolytic filtrates from *Moraxella bovis*—no sequences are disclosed.

None of the citations can be fairly said to disclose or suggest the invention defined in the present claims and so they must be acknowledges as being novel and involving an inventive step.

Industrial applicability (IA)

All claims meet the criterion of industrial applicability because they define polypeptides, nucleic acids, compositions or antibodies.
